We apply the strictest accepted standards to the measurement of population health outcomes to ensure our list of validated programs truly represent high-value health care.

~~Validation - Validation Institute~~

Acommon type of submission at any Journal is a review of the published information related to a topic. These are often returned to their authors without review, usually because they are literature reviews rather than systematic reviews. There is a big difference between the two (Table 1). Here, we summarise the differences, how they are used in academic work, and why a general literature
